"PREPARED BY AND FOR THE CAST OF WALT DISNEY WORLD"

JUNE 15, 1979

IT'S THE GOOD OL' SUMMERTIME!

Our business is show business, and as we all know, the show **must** go on, rain or shine, winter or summer. Each and every guest comes to Walt Disney World with certain expectations which generally come true thanks to the efforts of our entire Walt Disney World cast.

But during the summer months when families everywhere are taking vacations and expecting hours of fun, the show wouldn't be compete without a cast of thousands . . . thousands of Casual Regular and Casual Temporary cast members making every dream come true for every guest.

Our Casual Regular and Casual Temporary cast members help us all with every aspect of our show. They help us operate our

attractions, prepare and serve food to our guests, display and sell merchandise. They also help us keep everything clean and they assist in our resort operations.

We'd like to welcome all our new and returning Casual Regular and Casual Temporary cast members who spend their entire summer making our show so successful!

The Plaza Pavilion has received additional help for the summer months, thanks to Casual Temporary cast members like Cheryl Hawkins, Jerome Hardie and Harriet Newton.

Claire Duhaime and Candi Greatwood receive some tips from Tour Guide leads Leslie Courney and Peggy Hagmann as they begin their summer guiding guests throughout the Magic Kingdom. Peggy was a Casual Temporary cast member who changed her status to permanent and was promoted to lead shortly afterwards.

Helping out at the Emporium for the summer months is Carol Frey, who has been a Casual Temporary cast member for four years.

In the hot summer months our guests look forward to cold, refreshing ice cream, and Misty McCuan will be here full time to see that they can get some.

CARPENTER JOINS EPCOT

Carl Bongirno, Executive Vice-President of EPCOT, recently announced the promotion of **Eddie Carpenter** to Director of Finance, EPCOT Center.

Eddie attended the University of South Florida and was a certified public accountant in Sarasota before joining Walt Disney World eight years ago. Prior to his recent promotion, Eddie was the Manager of Financial Planning for Walt Disney World.

FOR YOUR BENEFIT

Planning a Vacation? Check Your Benefits!

Having time off is important to everyone. And many of us plan our vacations months and years ahead of time.

All permanent cast members begin earning their vacation hours the day they begin their job at Walt Disney World. Your vacation time is based on the number of straight time hours you work from the date you were hired to the end of the same calendar year, and for each calendar year thereafter. Most cast members earn two weeks of paid vacation time by working the previous calendar year.

If you are a new cast member, the vacation hours that you earn in the first year you work with Walt Disney World may not be used until you've worked nine continuous months, nor before the beginning of the next calendar year.

If you have any questions about the amount of time you have accrued, talk with your supervisor, and enjoy your vacation!

CAR CARE TIPS

How To Figure "Fuelishness"

As the cost of gasoline keeps increasing, we all need to be aware of the many ways we are being "fuelish" so that we can make the most of our gasoline and our money!

In the next few weeks, we'll talk about many ways you can stretch your miles per gallon.

- What are you carrying in your car?

According to the Highway User's Federation, every 100 pounds you add to your car costs you between one-tenth and four-tenths miles per gallon. And the smaller and lighter

your car is, and the more stop and go driving you do, the more extra weight cuts your mileage.

One way to cut this extra weight down is to stop using your trunk as storage for golf clubs, scuba equipment and other equipment. Another way is to carry only **one-half tank** of fuel for city driving, lightening your load by 30 to 60 pounds!

- What condition is your engine in?

Approximately 60 percent of the cars on the road need a tuneup. If your car is among them, you could be using **10 percent more fuel** than you would be if your car was in top condition! And if your car is running poorly, you're probably wasting 20 percent of your gasoline!

What causes those losses? A mis-firing spark plug can cut your miles per gallon by approximately two miles; a sticky carburetor by about three miles; and a dirty air filter by about one mile.

Why not check your present mileage, then give your car a thorough tuneup, changing spark plugs, points, oil and air filters and cleaning your carburetor and check the difference for yourself. You'll be surprised at your own "fuelishness"!

LETTERS TO US

To the Cast:

Thank you for the flowers and support during my recent illness. You are a great group to work with.

Thank you again,
Jack L. Cribbs

Thank you for sending me flowers during my illness. At times like this, it makes it very meaningful to know that you are thought of.

Thank you again,
Dudley Brown

"It Takes People"

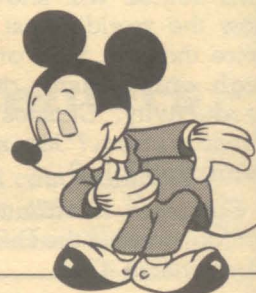

The last thing **Cindy Smith** thought she'd end up working with while still in college was energy systems, but that's where she's found her "niche" here at Walt Disney World. A native of Grand Rapids, Michigan, Cindy was a student at Eastern Michigan University working toward a degree in art education when her new husband **Kevin** of our Purchasing Department accepted a position at Walt Disney World. Since they moved to Orlando, Cindy decided to apply here as well and began working as a ticket seller even before our Magic Kingdom opened. Three months later she transferred to Wardrobe where she stayed for five years. After five years at Wardrobe, Cindy decided she wanted to learn something else about our Company, so she accepted a position as the receptionist with Reedy Creek Utility Company. There, she has become a "jane-of-all-trades" and says that every day is different and exciting. At the present time, Cindy prepares the RCUC newsletter, gives tours of our Solar Energy Building, coordinates training information for everyone at RCUC and was recently asked to help as the RCUC transportation coordinator. And each day she learns something new about energy systems! When she's not busy working, Cindy works on her home, sews, does needlework and still enjoys art as a hobby. She and her husband have also completed their certification in NAUI and plan to spend time scuba diving.

As we go about our day-to-day activities here at Walt Disney World we often forget about the interesting "private lives" our fellow cast members live. One cast member who has an interesting hobby is **Sam Holland**, assistant supervisor at our Tomorrowland Terrace. Sam's favorite pastime is motor racing. Originally from Trenton, New Jersey, Sam joined the United States Army at the age of 17. Although he spent over 12 years as a paratrooper, Sam was still looking for excitement, so he gave up his hobby of model trains for motor racing so he would have all the excitement he could handle. Sports car racing had been a family hobby since his father had been active in "AAA" racing which is now known as USAC. Sam raced Spitfires and Sprites, earning himself numerous trophies. Although his active racing days have come to an end, Sam still remains very active in the sport and works as a Pit Marshall at the Daytona Beach Speedway checking safety procedures and insuring that race rules are followed. He still holds national licenses for both IMSA and SCCA racing as well. Sam has been a cast member at Walt Disney World since 1971, leaving us only once for two months. Sam said he didn't like working anywhere else so back he came! His wife **Fay** works at Vista-United Telecommunications making Disney a family affair!

Dee Bruton, Supervisor of General Employment, could probably write a book about the numerous experiences she had while working for literary giant Pearl S. Buck. She was originally hired to work at Miss Buck's townhouse as clerical support and later proofread the many manuscripts that Miss Buck wrote. During this first five years, Dee was being "groomed" to take over one of Miss Buck's projects . . . helping the Amerasian children born as a result of the American involvement in the Korean war. Dee was sent to Korea where she scouted for these children who had been deserted by their mothers to place them in vocational schools and in dorms. Dee would insure that they received adequate nourishment and medical attention. Dee told us that her next assignment was to be in the Philippines, as Miss Buck had several Asian offices for her project. But Dee returned to the United States, married the man she had met in Korea and promptly found herself living in Texas. Dee then enrolled in Central Texas University until they moved to Florida. Since she arrived at the same time Walt Disney World was preparing to open, Dee decided this was where she wanted to be. Since 1971, Dee has worked in almost every area of our Company, from Resorts to Merchandise to Lake Buena Vista to Employee Relations. Although Dee is very career-oriented, she manages to juggle her career and her homelife quite well. Whenever she has free time she participates in a wide variety of activities with her husband and two children.

RAFTING TRIP DATE MOVES, PRICE LOWERED

Try packing three days of high excitement rafting adventure into two days, and you only begin to taste the fun you'll have on Cast Activities next white water rafting trip!

Sunday morning it's on to the Ocoee River in Tennessee, where you'll spend four hours that morning on one of the most top-rated white water rivers in the eastern United

On the intermediate "French Broad River," you'll spend the first day getting a feel for the white water, as was done last year by (l-r) Arla Henley (Cast Activities), Donna Dudley (Cash Control), Karen Morris (Convention Sales), Don Bowling (guest), and Graham Justice (WED).

First up, it's an overnight ride and traveling disco party aboard a chartered Greyhound bus, with arrival early Saturday morning at rafting headquarters in Hot Springs, North Carolina. You'll be outfitted in specialized equipment including life jackets, helmets and paddles, then trucked through the mountain passes to the French Broad River's headwaters. After a clinic on white water safety and raftsmanship, you and your friends will board up for a morning of riding the rapids, water battles and swimming . . . River Country was never like this!

Following lunch on the river banks, it's on to heavier rapids; even body surfing Needle Point Rapids in nothing but your life jacket, shoes and bathing suit! This is wet fun like you've never had before!

Dinner that Saturday evening is back at raft headquarters . . . thick steaks cooked to order on a grill, baked potatoes, garden salad grown right there, along with all the trimmings.

And Saturday night you can really expect to rough it . . . while you spend the night in a local Holiday Inn, complete with indoor swimming pool!

States! Following lunch, it's back up to the headwaters and we'll run it again! **Twice** in one day!

Then you board up and head back to Orlando, arriving early Monday morning, perhaps a little tired, but still in good enough shape to go to work if your schedule so requires.

Your second day on the "Ocoee River" will include a professional guide in every raft. All guides and equipment are supplied by Smokey Mountain River Expeditions, a professional river runners company.

This exciting adventure will depart Orlando at 7 p.m. on **Friday, July 13**, returning by 7 a.m. on **Monday, July 16**. The full cost of the trip has been lowered to \$128 per person, with reservations now being accepted in Cast Activities with a \$50 deposit.

CAST LIBRARY

CAST LIBRARY REOPENS AFTER EXTENSIVE REHAB

Our **Cast Library**, located in the Cast Activities complex on the 2nd floor of the Center Building, is now open after an extensive rehab which included cataloging all of its books into a scientific system which is utilized by public libraries. As the library grows along with Walt Disney World, the new system will be needed to better service our cast members.

All cast members are now invited to visit the library and begin using its reference materials and quiet study atmosphere.

As a side note, all of the old checkout cards submitted by many cast members have been voided under the new system. On your first visit to the facility, take a minute out to open a new "account" with the library so that the staff can speed up your checkout transactions.

The library is open Monday through Saturday from 8 a.m. till 5 p.m.

Karen Mooney and Rose Slater visited many libraries in the area to learn the Dewey Decimal System, part of Library Science College Courses. Then the two "librarians" surprised everyone by converting our Cast Library to the system!
